

## Project Design Phase-I Solution Architecture

|               |                          |
|---------------|--------------------------|
| Date          | 5 November 2022          |
| Team ID       | PNT2022TMID04269         |
| Project Name  | Personal expense tracker |
| Maximum Marks | 4 Marks                  |

### Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
